

# The Only Camera You'll Ever Need

How many times have you said to yourself, "I wish I could take a picture of this?"

We've all been there.

You're fumbling around with your smartphone . . . trying to snap a shot of something (or someone) outrageous . . . hoping they don't see you . . . and struggling to keep your amateur shutterbug skills on the down low.

Hey, you're no paparazzi . . . but there are times when you'd love to snag some pictures – maybe even some high-quality video – without letting the world know what you're doing.

I'll let you in on a little secret: there's absolutely *nothing wrong* with wanting to capture the kind of true-to-life moments that are only possible when people don't see you lugging a camera around!

Think about it: when's the last time you tried to sneak a picture with your smartphone, only to lose the authenticity of the moment once you've been discovered?

Don't you wish you could take pictures of friends and family in public without drawing the attention of everyone that passes by?

Maybe you've desperately wanted some everyday shots of your kids . . . but every time you pull out your camera they clam up.

That's where the **Extreme Spy Pen Camera 1080** fits in.

Candid shots can't be faked . . . kids can't be tricked . . . and subjects can't clean up their act for the second take when you're rolling with **the best pen camera on the market.**

No wonder more people are choosing the **Extreme Spy Pen Camera HD1080** as the ONLY camera to fill all of their photography and videography needs.

## **Don't waste your money on cheap knockoffs.**

What sets this pen camera apart from cheaper, inferior competitors?

The lightweight **Extreme Spy Pen Camera HD1080** effortlessly captures seamless images in 1080p from your shirt pocket, vehicle dash, or custom vantage point . . . keeping you focused on the action without weighing you down.

The durable, impact-resistant HD1080 also provides protection that rivals the best action cameras on the market – without the need for overpriced housings and accessories.

## **Don't miss another moment.**

The **Extreme Spy Pen Camera HD1080** is perfect for candid HD video and POV shots . . . allowing photographers to record genuine reactions at birthday parties, sporting events, and weddings – all without having to force friends and family to strike a pose.

Professional photographers and amateur shutterbugs alike will be BLOWN AWAY by the HD1080's user-friendly video settings, ensuring high quality video production at a fraction of the size of bulky, conspicuous HD video recorders.

Before you buy another camera, find out what the Extreme Spy Pen Camera HD1080 has to offer:

- **High Definition 1080p & 720p Video Quality**
  - Shoot crystal-clear 1080p video at 30fps or 720p at 60fps for the sharpest home movies you've ever seen.
  
- **Seamless 60fps Action Mode**
  - Never miss another moment with the HD1080's 60 frames-per-second video capture mode.

- **Covert Light Setting**
  - The HD1080's flashing indicator light lets you know you're recording before shutting off, keeping your pen camera concealed for the best candid video clips possible.
  
- **Customizable Video Settings**
  - Adjust the desired exposure, white balance, contrast, saturation, sharpness, and video quality to create professional-grade clips in a variety of scenes and settings.
  
- **Low Light Performance**
  - Late-night sporting events. Dance recitals. Outdoor concerts. These challenging, low-light conditions can result in disappointing, dark, and grainy videos. But with the HD1080's high-performance low-lux lens, you'll be able to record any dim and shadowy occasion with minimal pixilation.
  
- **Time/Date Stamp**
  - Keeping your clips organized is essential to enjoying them later. With the H1080's time and date stamp feature, you can keep track of the day and time each video is recorded, saving you the hassle of fumbling through countless files searching for last year's holiday reels.
  
- **Still Photo Mode**
  - Take a picture whenever the mood strikes. The H1080 easily captures still images with a resolution of 2048x1536 in JPEG format.
  
- **Integrated Lithium-Ion Battery**
  - Fueled by a rechargeable 380mAH battery that can be topped off with any USB port, the HD1080 delivers 70-80 minutes of battery life with each full charge.

- **Plug & Play Simplicity**

- The HD1080 is fully compatible with Windows and Mac operating systems – simply plug it into your USB port and you're ready to roll.

Life's little moments are fleeting. Don't miss another opportunity to capture them in their truest form.

This pen camera will REVOLUTIONIZE the way you take photos and video.

Why wait another day?

See for yourself why our customers are calling the **Extreme Spy Pen Camera HD1080** the most life-changing device they've purchased in years.
